41 [Measuring the structural similarity of semistructured documents using entropy](#)

Sven Helmer

 September 2007 **VLDB '07**: Proceedings of the 33rd international conference on Very large data bases.

Publisher: VLDB Endowment

 Full text available: pdf(228.46 KB) Additional Information: [full citation](#), [abstract](#), [references](#)

We propose a technique for measuring the structural similarity of semistructured documents based on entropy. After extracting the structural information from two documents we use either Ziv-Lempel encoding or Ziv-Merhav crossparsing to determine the ...

42 [Structured use of external knowledge for event-based open domain question answering](#)

Hui Yang, Tat-Seng Chua, Shuguang Wang, Chun-Keat Koh

 July 2003 **SIGIR '03**: Proceedings of the 26th annual international ACM SIGIR conference on Research and development in informaion retrieval

Publisher: ACM

 Full text available: pdf(287.93 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

One of the major problems in question answering (QA) is that the queries are either too brief or often do not contain most relevant terms in the target corpus. In order to overcome this problem, our earlier work integrates external knowledge extracted ...
